

GUARDBOX

INDICATOR EXTENSION

3D Visual indicator extension

Guardbox 3D visual indicator extension allows to use our limit switch box series GP, GI and GD for all applications where the installation of separate visual indicator is required. Usable with all Guardbox indicator type, with a maximum extension length of 700 mm, our indicator extension is available in two different version:

- Rigid extension
- Flexible extension

Position indicator extension

WITH THE INDICATOR EXTENSION IT'S POSSIBLE TO SATISFY FOUR ESSENTIAL NEEDS:

- ☒ HIGH VISIBILITY FROM ALL SIDES
- ☒ HIGH MECHANICAL STRENGTH TO PROTECT AGAINST FALLING OBJECTS
- ☒ HIGH RESISTANCE TO WORST WEATHER CONDITION
- ☒ EASY AND QUICK ADJUSTMENT

Standard Indicator Extension
